Device inventory name (e.g. organisational numbering)	Sensor Type	Model/name specification (e.g. URL where tech spec or data sheet is)	EUI or serial number (tip -see sticker on device/box)	Manufacturer	Third-party vendor - URL of datasheet / or direct set-up photo evidence	Evidence subscription paid for third party (last invoice)	Deployment location description / photo	Grid or GPS Ref	Altitude (m)	Year Deployed	Date & reason for data loss	Last Firmware Update for sensor date	Statement of Compliance from Manufacturer	Statement of Compliance from vendor	Calibration record obtained?	Location of screenshot of app record of sensor location (e.g. ARC GIS, free GIS, Google Earth or evidence of Google or Apple photo location)	Evidence of data collection set-up	Network type - e.g. LoRa gateway and the things network / LPWAN / 3G or 4G or 5G / wifi provider	Network Authentication Type & check that sensor appears in the datastore	Data store - e.g. local, the things network or third party cloud dashboard or app	SD / flash card number, & date of last downloaded	Format data output viewed in - raw or dashboard or in app	Data authenticity verification - description	Evidence of Cyber Essentials Compliance ? (Or give guidance)
